Karatina University

BSc. Computer Science
2024 - Present

Coursework includes programming, data structures, and web development.

Nkubu High School

KCSE Certificate
2020 - 2023

WORK EXPERIENCE

Personal Portfolio Website

Designed and developed a personal portfolio website to showcase skills, projects, and background in web development. Built using CSS, and basic Javascript with a responsive layout for both mobile and desktop users. The site includes links to my GitHub, resume, and featured projects. Hosted live on GitHub pages.

Media Website for Local Content Creator

Developed a fully responsive media website for a local client to showcase videos, blog posts, and social updates. The site was built using HTML, CSS, and Javascript, with a focus on modern layout, performance, and mobile optimization. Worked closely with the client to gather requirements, implement feedback, and deliver a clean, user-friendly design.

Technical Skills

HTML5 & CSS3	<div></div>
Responsive Design	<div></div>
Git & GitHub	<div></div>
Javascript(basic)	<div></div>

Soft Skills

Strong problem-solving abilities
Effective communication
Team player with leadership potential
